Dear Mrs. Annala

On August 12, 2010, you filed a notice of appeal on the Gunnison National Forest Travel Management Plan decision. Your appeal was timely, filed pursuant to 36 CFR 215, and challenged Forest Supervisor Charlie Richmond's decision on various aspects of the Plan. Your appeal was assigned number 10-02-09-0066 for tracking purposes.

I have weighed the recommendation from the Appeal Reviewing Officer (ARO) and incorporated it into this decision. A copy of the ARO's recommendation is enclosed. This letter constitutes my decision on your appeal including the specific relief requested.

### **Action Appealed**

The Gunnison National Forest signed a decision to improve travel management on National Forest System lands within the Gunnison and Paonia Ranger Districts of the Grand Mesa, Uncompahgre and Gunnison (GMUG) National Forests on June 28th, 2010. This decision was needed to design a sustainable transportation system that provides:

- Public and management access;
- Recreational opportunities;
- Natural and cultural resource protection;
- Public safety; and
- Agency management success

Your letter expressed your concern about designations of specific trail segments. In particular, you provided specific comments on motorized and mechanized access to the Crystal Peak Trail, Mount Tilton Spur Trail, Cement Creek Trail, and the Fenceline Trail.

### **Appeal Reviewing Officer's Findings and Recommendation**

Your appeal was formally reviewed by a US Forest Service team, led by ARO Bill Dunkelberger. This team provided an objective review and was not involved in the development, analysis or decision of the Gunnison Travel Management Plan. The team evaluated your appeal and the project record, and provided a recommendation to me. The ARO found that your appeal contained multiple issues which are summarized in the attached recommendation letter. He recommends the Forest Supervisor's decision be affirmed, finding no violation of law, regulation, or policy.

**Decision**

After reviewing the appeal record, I agree with ARO Dunkelberger's analysis as presented in the attached recommendation letter. I believe the appeal record supports these conclusions that there was no evidence of a violation of law, regulation or policy associated with the issues raised. I affirm Forest Supervisor Charlie Richmond's decision in whole, denying your request for relief. This decision constitutes the final administrative determination of the Department of Agriculture (36 CFR 215.18(c)).

Sincerely,
